

Discover your Health Screening Benefits

Health screenings are an important part of managing your health.

That's why your Accident and Critical Illness Insurance coverage from MetLife provides a Health Screening Benefit¹ (HSB) for covered screenings and tests. Now, everyone who's enrolled—you, your spouse, and dependent children²—can earn a benefit just for taking care of his or her health.

At least 42% of newly diagnosed cancers in colorectal cancer deaths in the U.S. could be prevented with recommended screenings.³

For women in their 40s and 50s, **annual mammogram screenings decrease breast cancer deaths.**⁴

Examples of covered screening and prevention tests may include **a blood test to determine total cholesterol, a blood test to determine triglycerides, an endoscopy**, or a colonoscopy. For a complete list of what's covered, please see a copy of your certificate.

Here's an example of how it works.

*Susan's doctor conducts a blood test to determine total cholesterol, which is one of the many screenings or tests covered by MetLife. Afterward, Susan contacts MetLife by calling 1-800-GET-MET8 to submit her HSB claim. All Susan needs to provide is her physician's name, phone number and address, plus the test and the date it was completed. A check for Susan's HSB benefit payment is on the way within a few business days once her claim is processed. It's that easy!**

METLIFE'S ACCIDENT (AX), HOSPITAL INDEMNITY (HI) AND CRITICAL ILLNESS (CII) INSURANCE POLICIES ARE LIMITED BENEFIT GROUP INSURANCE POLICIES. The policies are not intended to be a substitute for medical coverage providing benefits for medical treatment, including hospital, surgical, and medical expenses, and do not provide reimbursement for such expenses. Certain states may require the insured to have medical coverage to enroll in these policies. Like most group accident and health insurance policies, MetLife's AX, HI and CII policies contain certain exclusions, limitations and terms for keeping them in force. Product features and availability may vary by state. The policies may be subject to a Benefit Reduction Due to Age provision. For HI and AX, prior hospital confinement may be required to receive certain benefits, and there may be a pre-existing condition exclusion for hospital sickness benefits, if applicable. Hospital does not include certain facilities such as nursing homes, convalescent care or extended care facilities. For CII, there may be a pre-existing condition exclusion, and a Benefit Suspension Period between recurrences of the same Covered Condition or occurrences of different Covered Conditions. MetLife offers CII on both an Attained Age basis, where rates will increase when a Covered Person reaches a new age band, and an Issue Age basis, where rates will not increase due to age. Rates are subject to change. MetLife reserves the right to raise premium rates for Issue Age CII on a class-wide basis. A more detailed description of the benefits, limitations, and exclusions applicable to MetLife's AX, HI and CII products can be found in the applicable Disclosure Statements or Outlines of Coverage/Disclosure Documents available at time of enrollment.
